

FOUNTAIN SOLUTIONS

FOUNTAIN SOLUTION ADDITIVE FOR PRINTING WITHOUT ISOPROPYL ALCOHOL.
PH STABILIZER. CONCENTRATED.

PROPERTIES

- ▶ Eliminates the need to use isopropyl alcohol.
- ▶ Maintains pH values constant between 4,8 and 5,2.
- ▶ Contains corrosion inhibitors: which means that damage to the plate, blanket and impression cylinders will be avoided.
- ▶ Permits fast start-ups without dirt or scumming.
- ▶ Creates a hygroscopic film that allows a reduction in the quantity of water on the plate.
- ▶ Gives perfect ink-water balance after only a few copies.
- ▶ Avoids the formation of algae, fungus etc. in the tank and circulation systems of the press machine. Contains effective biocides and bactericides.

APPLICATION

- ▶ Sheet-fed presses.
- ▶ Adequate for all damping systems.
- ▶ Recommended for both manual dosing and all types of automatic dosing systems.

METHOD OF USE

- ▶ FOUNT PH IPA FREE-03 is a concentrated product.
- ▶ Dilute 4 - 5% with water to achieve a pH value between 4,8 and 5,2.

CONSIDERATIONS

- ▶ The quality of the water used may vary the characteristics of the final product.

PACKAGING

- ▶ 20 liters.

Note:
The results obtained may vary depending if the conditions of use are outside of our recommended values.
