

## **CLEANERS / ACTIVATORS -CLEANERS-**

CLEANER - ACTIVATOR FOR NON PROCESS OFFSET PLATES.

### **PROPERTIES**

- ▶ None abrasive product ideal for cleaning and activation of no process plates.
- ▶ Optimised viscosity for easier application.
- ▶ Reactivates the graphic image and regenerates the hydrophilic surface of the plate.
- ▶ Completely eliminates any oxidation that may form on the plate permitting continued printing without problems.

### **APPLICATION**

- ▶ Like all cleaners, use only when you have verified problems with scumming due to oxidation.
- ▶ It is recommended to use it only in the starting phases, in later situations use Plate Cleaner K-705.

### **METHOD OF USE**

- ▶ Shake well before applying to the plate.

### **CONSIDERATIONS**

- ▶ Use with moderation and care.

### **PACKAGING**

- ▶ 1 liters.

**Note:**  
The results obtained may vary depending if the conditions of use are outside of our recommended values.
