

CLEANERS / ACTIVATORS -CLEANERS-

CLEANER - ACTIVATOR FOR NON PROCESS OFFSET PLATES.

PROPERTIES

- ▶ None abrasive product ideal for cleaning and activation of no process plates.
- ▶ Degreaser and oxide remover based on non-toxic, non-harmful mineral solvents.
- ▶ Reactivates the graphic image and regenerates the hydrophilic surface of the plate.
- ▶ Completely eliminates any oxidation that may form on the plate permitting continued printing without problems.

APPLICATION

- ▶ Like all cleaners, use only when you have verified problems with scumming due to oxidation.

METHOD OF USE

- ▶ Shake well before applying to the plate.

CONSIDERATIONS

- ▶ Use with moderation and care.

PACKAGING

- ▶ 6 x 2 liters.

Note:
The results obtained may vary depending if the conditions of use are outside of our recommended values.
