

## WASHES FOR BLANKETS AND ROLLERS

SOLVENT WASH FOR BLANKETS AND ROLLERS. MEDIUM EVAPORATION.

### PROPERTIES

- ▶ Its slight water miscibility allows the removal, during the washing phase, of paper residue adhered during the print run.
- ▶ Non-toxic, non-harmful, low flammability, almost completely without odour, and environmentally friendly.
- ▶ It is a powerful solvent, also apt for frequent washes, its characteristics allow perfect cleaning of rollers and blankets without risk of wear or swelling of the rubber.

### APPLICATION

- ▶ Optimum for all offset machines with automatic blanket washing systems.
- ▶ **WASH-730** can be used direct for the cleaning of blankets and inking rollers.

### METHOD OF USE

- ▶ Apply **WASH-730** directly to the surface to be cleaned and spread with a sponge or cloth.
- ▶ In automatic blanket washers adjust the solvent dose rate such that it evaporates during the final wash cycles.

### CONSIDERATIONS

- ▶ **WASH-730** keeps the rubber surfaces in good condition.

### PACKAGING

- ▶ 5 liters.
- ▶ 200 liters.
